SUBJECT INDEX

N-Acetyl-leucinamide,
calorimetric determination of chiral interactions in aqueous solutions. Part 2. *N*-acetyl-leucinamide at 298.15 K. (Barone et al.) 105
Acidity,
calorimetric investigation of the effect of dealumination on the acidity of zeolites (Auroux, Taarit) 63
Adsorption mechanisms,
contribution of microcalorimetry to the study of adsorption mechanisms of ionic and non-ionic molecules at the solid–water interface (Thomas et al.) 197
Alkylureas,
enthalpies of fusion and solid-to-solid transition, entropies of fusion for urea and twelve alkylureas (Dell Gatta, Ferro) 143
Alpha alumina,
influence of additives and water vapour on the transformation of transition aluminas into alpha alumina (Pijolat et al.) 71
Amines,
thermodynamic study of organic compounds in octan-1-ol. 2. Enthalpy changes in the transfer of primary, secondary, and tertiary amines from gas and the dilute aqueous state (Berti et al.) 1

Barite,
investigations of water film properties on barite surface containing preadsorbed tetradecylammonium hydrochloride (TDACl) (Staszczuk, Biliński) 363
Benzenoid hydrocarbon isomers,
total resonant sextet benzenoid hydrocarbon isomers and their molecular orbital and thermodynamic characteristics (Ray Dias) 313
Binary liquid organic mixtures,
application of the disquac group contribution model to binary liquid organic mixtures (Marongiu, Kehiaian) 45
Binary mixtures,
thermodynamic properties of binary mixtures containing cyclic ethers (Inglese, Marongiu) 9
Bi_2Te_3–Bi_2Se_3,
new contribution in the study of the Bi_2Te_3–Bi_2Se_3 system (Dumas et al.) 135

$CaCO_3$–$SrCO_3$,
investigation of the thermal stability of $CaCO_3$–$SrCO_3$ solid solutions (Fubini et al.) 23
Calcium ions,
calorimetric study of the interaction of calcium and magnesium ions with calmoduline (Milos et al.) 37
Calmoduline,
calorimetric study of the interaction of calcium and magnesium ions with calmoduline (Milos et al.) 37
Chiral interactions,
calorimetric determination of chiral interactions in aqueous solutions. Part 2. *N*-acetyl-leucinamide at 298.15 K. (Barone et al.) 105
Co^{2+},
a thermometric titration study of the interaction of Co^{2+} with metallochromic indicators (Bin Othman et al.) 163
Continuous gradient method,
continuous gradient method in flow microcalorimetry. Part II: Application to solution equilibria (Fisicaro et al.) 153
Copper(II) succinate,
study of copper(II) succinate complexed with imidazole or methyl-substituted imidazoles (Masson et al.) 221
Cyclic ethers,
thermodynamic properties of binary mixtures containing cyclic ethers (Inglese, Marongiu) 9

Dealumination,
calorimetric investigation of the effect of dealumination on the acidity of zeolites (Auroux, Taarit) 63
Dipalmitoylphosphatidylcholine liposomes,
thermotropic behaviour of dipalmitoylphosphatidylcholine liposomes containing retinoids (Gurrieri, Castelli) 117
Diphenyl-1,3-urea,
enthalpies of sublimation and fusion of monophenylurea and diphenyl-1,3-urea (Ferro, Della Gatta) 189
Disquac group contribution model,
application of the disquac group contribution model to binary liquid organic mixtures (Marongiu, Kehiaian) 45
N-Dodecylbetaine,
interfacial properties of zwitterionic surfactants: *N*-dodecylbetaine (Amin-Alami et al.) 171

Elastomer,
Epoxy polymers: Effects of the elastomer in the kinetics of polymerization (Pezzati et al.) 29
Emulsified aqueous saline solutions,
on the study by DSC of the unexpected ice melting at 0 °C of emulsified aqueous saline solutions (Clausse et al.) 123
Epoxy polymers,
Epoxy polymers: Effect of the elastomer in the kinetics of polymerization (Pezzati et al.) 29

First row transition metal ions,
thermal and electrical studies on quinoxaline compounds of some first row transition metal ions (Allan et al.) 403

Hydroxynaphthoic acid azo dyes,
thermogravimetric potentiometric, conductimetric and spectrometric studies on lanthanide complexes with some hydroxynaphthoic acid azo dyes (Abdel-Ghani et al.) 231
Hydrofluoric acid,
enthalpies of solution of different kaolinites and metakaolinites in hydrofluoric acid. Influence of crystal-chemical characteristics (Murat et al.) 79

Imidazole,
study of copper(II) succinate complexed with imidazole or methyl-substituted imidazoles (Masson et al.) 221
Ionic molecules,
contribution of microcalorimetry to the study of adsorption mechanisms of ionic and non-ionic molecules at the solid–water interface (Thomas et al.) 197
Itaconic acid compounds,
thermal studies on itaconic acid compounds of some transition metal ions (Allan et al.) 295

Kaolinites,
enthalpies of solution of different kaolinites and metakaolinites in hydrofluoric acid. Influence of crystal-chemical characteristics (Murat et al.) 79

Lead(II) 9,10-dihydroxyoctadecanoates,
thermotropic mesmorphic changes in racemic and meso lead(II) 9,10-dihydroxyoctadecanoates (Akanni) 355
Liquid aluminum–gallium–tin,
thermodynamics of the liquid aluminum–gallium–tin system (Hoch) 395
Liquid crystalline polyester,
thermal study of blended systems of nylon 6 and liquid crystalline polyester (Paci et al.) 181
Liquid organic mixtures,
application of the disquac group contribution model to binary liquid organic mixtures (Marongiu, Kehiaian) 45

Magnesium ions,
calorimetric study of the interaction of calcium and magnesium ions with calmoduline (Milos et al.) 37
Magnesium stannate,
Gibbs free energy of formation of magnesium stannate from EMF measurement (Raghavan) 389
Metakaolinites,
enthalpies of solution of different kaolinites and metakaolinites in hydrofluoric acid. Influence of crystal-chemical characteristics (Murat et al.) 79
Metallochromic indicators,
a thermometric titration study of the interaction of Co^{2+} with metallochromic indicators (Bin Othman et al.) 163
Methyl-substituted imidazoles,
study of copper(II) succinate complexed with imidazole or methy-substituted imidazoles (Masson et al.) 221
Microcalorimetric study,
determination of the urease activity and the relative inhibition in the presence of some metal ions: A microcalorimetric study (Antonelli et al.) 95
Monophenylurea,
enthalpies of sublimation and fusion of monophenylurea and diphenyl-1,3-urea (Ferro, Della Gatta) 189

$(NH_4)_4[UO_2(CO_3)_3]$,
spontaneous isothermal decomposition of the uranyl carbonate complex $(NH_4)_4[UO_2(CO_3)_3]$ at room temperature. Part I. Chemical analysis (Baran, Škvor) 245
spontaneous isothermal decomposition of the uranyl carbonate complex $(NH_4)_4[UO_2(CO_3)_3]$ at room temperature. Part II. Infrared spectroscopy and X-ray analysis (Baran, Voseček) 261
spontaneous isothermal decomposition of the uranyl carbonate complex $(NH_4)_4[UO_2(CO_3)_3]$ at room temperature. Part III. Mechanism of the decomposition. Stability of the uranyl molecular orbitals (Baran) 277

Non-ionic molecules,
contribution of microcalorimetry to the study of adsorption mechanisms of ionic and non-ionic molecules at the solid–water interface (Thomas et al.) 197
Non-isothermal kinetics,
on the dependence of kinetic parameters and functions in non-isothermal kinetics (Vyazovkin, Lesnikovich) 413
Nylon 6,
thermal study of blended systems of nylon 6 and liquid crystalline polyester (Paci et al.) 181

Octan-1-ol,
thermodynamic study of organic compounds in octan-1-ol. 2. Enthalpy changes in the transfer of primary, secondary, and tertiary amines from gas and the dilute aqueous state (Berti et al.) 1

Polymerization,
Epoxy polymers: Effects of the elastomer in the kinetics of polymerization (Pezzati et al.) 29
Potassium metasilicate,
thermodynamic properties of potassium metasilicate (K_2SiO_3) (Brown, Bennington) 289

Retinoids,
thermotropic behaviour of dipalmitoylphosphatidylcholine liposomes containing retinoids (Gurrieri, Castelli) 117
Reduced-time plot,
method of the selection of the $g(\alpha)$ function based on the reduced-time plot (Różycki, Maciejewski) 339

Quinoxaline compounds,
thermal and electrical studies on quinoxaline compounds of some first row transition metal ions (Allan et al.) 403

Substituted phenylazo barbituric acids,
thermodynamic parameters of ionization of 5-(2-substituted phenylazo) barbituric acids (Masoud et al.) 209
Solid solutions,
investigation of the thermal stability of $CaCO_3$–$SrCO_3$ solid solutions (Fubini et al.) 23
Solid-to-solid transition,
enthalpies of fusion and solid-to-solid transition, entropies of fusion for urea and twelve alkylureas (Della Gatta, Ferro) 143
Solid–water interface,
contribution of microcalorimetry to the study of adsorption mechanisms of ionic and non-ionic molecules at the solid–water interface (Thomas et al.) 197

Tetraalkylammonium tetrafluoroborates,
on the thermal behaviour of some tetraalkylammonium tetrafluoroborates (Zabinska et al.) 87
Tetradecylammonium hydrochloride,
investigations of water film properties on barite surface containing preadsorbed tetradecylammonium hydrochloride (TDACl) (Staszczuk, Bilíński) 363
Thiols in non-aqueous media,
a thermometric method for determination of thiols in non-aqueous media. Comparison with other methods (Borrull et al.) 305
Transition aluminas,
influence of additives and water vapour on the transformation of transition aluminas into alpha alumina (Pijolat et al.) 71

Unexpected ice melting,
on the study by DSC of the unexpected ice melting at 0 °C of emulsified aqueous saline solutions (Clausse et al.) 123
Urea,
enthalpies of fusion and solid-to-solid transition, entropies of fusion for urea and twelve alkylureas (Della Gatta, Ferro) 143
Urease activity,
determination of the urease activity and the relative inhibition in the presence of some metal ions: A microcalorimetric study (Antonelli et al.) 95

Water–2-ethoxyethanol,
thermochemical properties of NaI solutions in water–2-methoxyethanol and water–2-ethoxyethanol mixtures. The temperature dependence of enthalpic pair interaction coefficients in water solution (Piekarski, Tkaczyk) 377
Water–2-methoxyethanol,
thermochemical properties of NaI solutions in water–2-methoxyethanol and water–2-ethoxyethanol mixtures. The temperature dependence of enthalpic pair interaction coefficients in water solution (Piekarski, Tkaczyk) 377

Zeolites,
calorimetric investigation of the effect of dealumination on the acidity of zeolites (Auroux, Taarit) 63
Zwitterionic surfactants,
interfacial properties of zwitterionic surfactants: *N*-dodecylbetaine (Amin-Alami et al.) 171
